Therapeutic Riding Program

High Horses Therapeutic Riding Program has been serving residents of the Upper Connecticut River Valley region of New Hampshire and Vermont since 1993.

For individuals with mental or emotional challenges, the unique relationship formed with the horse can lead to increased patience, trust, and self-worth. Our riders range in age from 3 to 92, and have a variety of disabilities ranging from autism, cerebral palsy, developmental delays and emotional challenges.

Our trained and professional staff, volunteers, and horses work as a team to provide individualized lessons addressing the physical, emotional, social and cognitive challenges of children and adults with special needs. Each rider's unique strengths and needs are carefully considered. This distinctive experience of achievement, joy, and community inspires and empowers everyone involved.
